Mr Lazarus, and FCC Disability Rights Office Team:

According to Ex-Parte filing by Madison Dearborn Partners signed by Jim Perry to you, Jim expressed concern regarding the FCC's suggestion. Jim is apparently extremely concerned about company's Golden Egg.

Please do not be fooled by those phone calls, emails, faxes from Madison Dearborn Partners, GTCR Golden Rauner, and Sorenson along with their misguided customers.

May I make an suggestion? Why don't you and your team, subpoena all financial records from Goldman Sachs Group Inc, Morgan Stanley, Kirkland & Ellis LLP (Christopher Butler, P.C.), Bank of America (Merrill Lynch AKA Bank of America Business Capital) and other investment bankers that were involved with the deals with Sorenson Communications, GTCR Golden Rauner and Madison Dearborn Partners? All of my research shows me that Sorenson has been refinancing their debts to pay their old financial deals along with equity dividends every time. Since some articles vary on the amount of dividend, I would have to say its at least 500 million dollars in dividend alone in the past few years.

I have discovered a very interesting article on line showing that GTCR has made 13691% profit on their investments. I am attaching this snapshot which will clearly show why Jim Perry is concerned about his Golden Egg.

Please do not fall into Sorenson's pressure. They have brought this debt issue on themselves via refinancing and adding dividends to pay themselves. I do not think its proper for FCC to bail them out of the TRS Fund that NECA oversees.

I STRONGLY SUGGEST THAT FCC STAND VERY FIRM ON FCC's ONE YEAR MULTI TIER RATE PLAN!

Thank you

Jon Ziev

Writedowns and Writeups Through Apollo Investment Corp's Eyes.

<http://www.pehub.com/48373/write-downs-and-write-ups-through-apollo-investment-corps-eyes/>

[PE Hub Blog](#) — Mega-buyout firm Apollo Management has a lesser known BDC outfit called Apollo Investment Corp. (Nasdaq: AINV), which invests in CLOs, sub debt, second lien bank debt and warrants of leveraged buyouts. But the interesting part of Apollo Investment is its co-investments. The firm makes equity investments alongside a number [...More](#) of well-known private equity firms. Because the firm is public, its quarterly report includes a number of not-otherwise disclosed write-downs and write-ups on portfolio companies of firms like **GTCR** Golder Rauner, Code Hennessy, Wasserstein & Co. and Madison Dearborn Partners. Follow the jump to view the second quarter write-downs and write-ups on the 23 LBOs AINV has co-invested in. Highlights include a number of gains. **GTCR** appears to be killing it on the firm's investment in **Sorenson** Communications. The investment was written up 13691%. Other big winners—Sun Capital wrote up its investment in Garden Fresh by 105%. Gryphon Investors wrote up its investment in Delta Educational Systems Inc. by 242%. Odyssey Investment Partners wrote up its investment in machinery company Pro Mach by 109%. On the flip side, Apollo Investment Corp.'s investments in companies owned by JPM Partners, Wasserstein & Co., Veronis Suhler Stevenson, and Centre Partners have taken some hefty writedowns, many as high as 100%.
